Gasketed Plate Heat Exchangers

As a specialist of various kinds of heat exchangers, Emmegi offers a range of gasketed plate heat exchangers.

The gasketed Plate heat exchangers are available in various models and dimensions and always offer the best solution to a great variety of heat exchange applications coming from both the HVAC and the industry such as the power industry, marine, chemical, heavy industry etc., as well as cogeneration and district heating and cooling applications.

Description:

The plates are available in two different designs, both in H (high efficiency) and L (low efficiency), enabling pressure drop optimization through the combination of both plates. The gaskets have been designed with the Easyfix system in order to enable an easy fastening of the gaskets to the plates and guarantee perfect leak-tightness.

Certifications:

ISO 9001 Vision 2000
P.E.D. (European pressure Directive 97/23 CE)

Materials:

Frame: Carbon steel, painted
Plates: AISI 316L / TITANIO
Gaskets: NBR / EPDM
Tightening bolts: galvanized steel
